

First Impressions Films is proud to offer two classes for the exploring and dedicated actor.

There is no limit to the art of acting. You need the understanding of all human nature, the sense of beauty of the artist and poet, the sense of rhythm of the dancer and musician, the mentality of a philosopher and scientist. It is the universal art.

Charles Jehlinger

Foundation Skills Study

An ongoing course, dedicated to the development of the actor's personal resources. Beginning with the fundamentals of relaxation and concentration, with exercises designed to develop and heighten those skills, moving through script breakdown and analysis, and bringing the expanded knowledge into play during scene study and monologues. Exercises for home exploration will be given as needed.

There's a reason this is a full day course....you'll be BUSY!

You will require loose fitting clothing (exercise clothing is fine as long as it does not compress your abdomen) for the breathing exercises.

For the first class, you will need the clothing, and a monologue that you wish to work on.

Maximum enrollment for this class is 14.

Every Sunday from 9am-5pm

Cost: \$300 per month

Scene Study

For the more experienced actor, an ongoing scene study class, focusing on utilizing all of the actors emotional and personal resources to create the magic of a personal moment taking place in public. This will incorporate some of the exploration of the Foundation Skills classes as needed, but the assumption here is that the student already has done some training, or some experience, and wishes to develop their skills further.

First class requirement is a monologue you wish to work on.

Maximum enrollment for this class is 12

Tuesday evenings, 7-11pm

Cost: \$175.00 per month

The actor cannot choose his own time. You are lucky if opportunity knocks once on your door. Be ready to grab it.

Everyone works every class!
